FINISH!

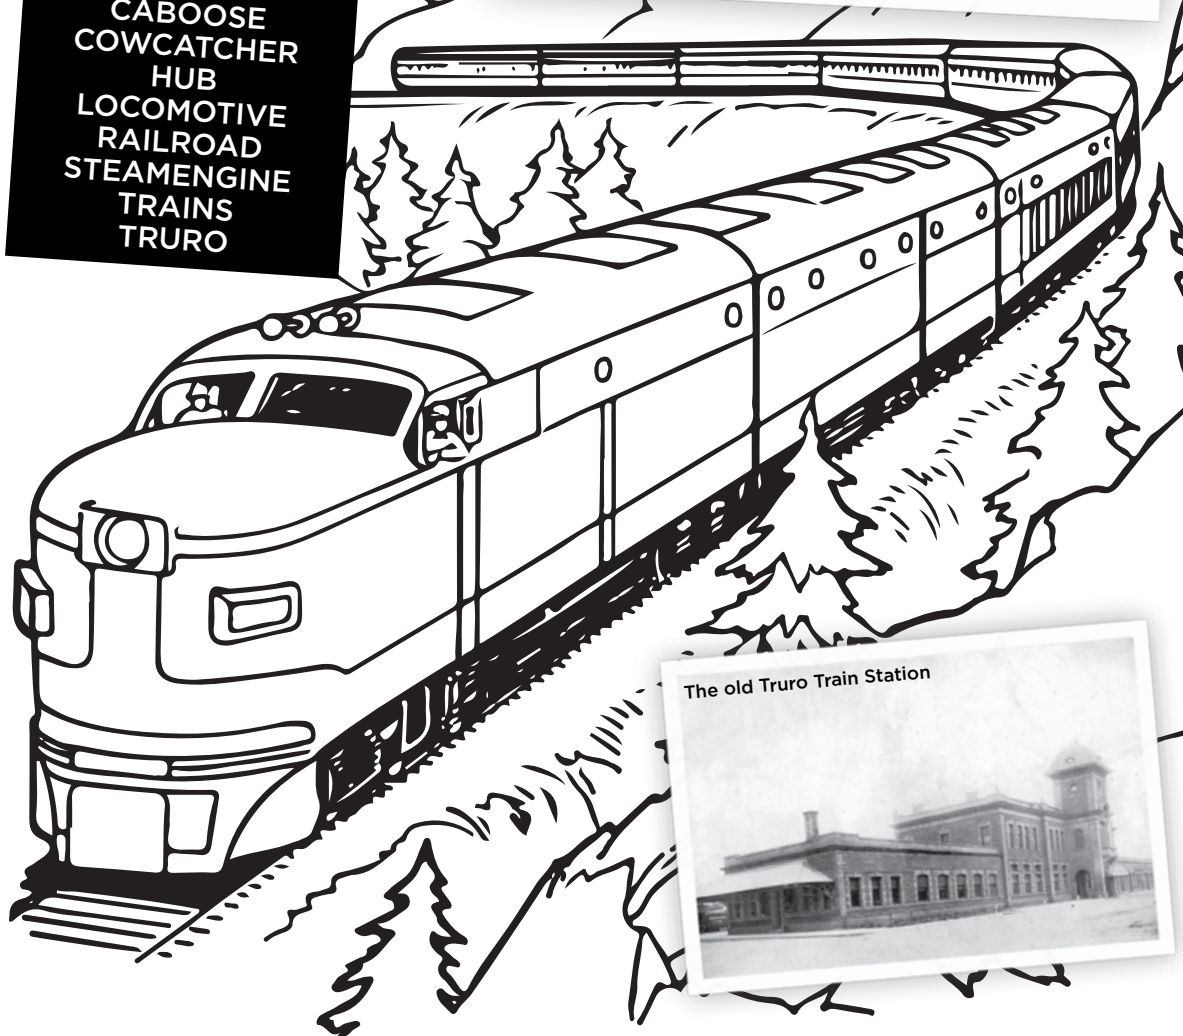

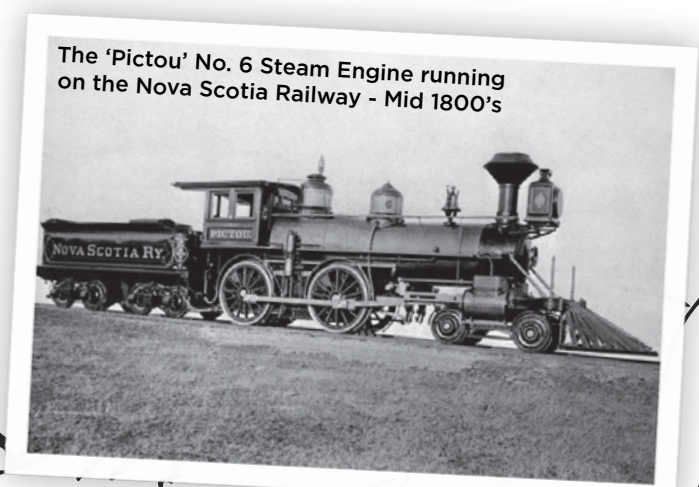

WHAT'S ALL THE 'HUB' ABOUT?

A 'hub' is the word for the middle of wheel, or an important place where many things connect, which in Truro's case was trains! The first railway opened between Truro and Halifax in the year 1858. Truro's convenient location meant the railway line could expand in many different directions, just like the spokes on a wheel. That's how Truro got the nickname 'The Hub of Nova Scotia.'

Try to find all 8 words:
CABOOSE
COWCATCHER
HUB
LOCOMOTIVE
RAILROAD
STEAMENGINE
TRAINS
TRURO

Take the Truro Train through these terribly twisted tracks!
